CONTENT MANAGEMENT PLATFORM

# PACKAGED PLATFORMS

## SMARTONLINE

SMARTonline is a **Content Management Platform** that enables clients to manage their customer engagement via native mobile apps (Android and iOS). The platform allows users to set up various parent-child relationships to structure the content you wish to communicate with your customer. Once the structure is established users can publish media-rich content as articles or products (including video, pictures as a gallery, banner advertising to external links). In addition, the platform will also capture all your required customer relationship data at registration that can be exported to other engagement channels e.g. email newsletters.

## CLOCK-IN

Clock-IN is a **Workforce Management Platform** that enables clients to manage the tedious administration of resources performing various tasks and activities at various sites. Clients can easily create sites and assign the workforce according to a roster with multiple schedules. The time and attendance schedules are tracked with a mobile solution that will take a facial recognition photo, plot the location and capture the date time at the point when checking in. Line managers will be notified according to SLA if resources haven't checked in, aiding the manager to manage by exception to minimize unnecessary workload.

## EDGE MVNE

The **EDGE MVNE solution** is a cloud based platform that help prepaid MVNE business sell and manage their respective value proposition to their consumers using a store/agent distribution channel. In addition the platform enables lucrative reward or rebate opportunities to capture and retain loyal customers. Consumers can redeem their rewards using cashless payment technology that enables them to buy goods from a retail value chain.

The Restaurant Performance Manager is a **Customer Experience Platform** that enables clients to run their restaurant more efficiently. Restaurant managers can quickly maintain menu items and set up promotions according to seasonality changes. In addition, customers can order food to collect, make table bookings at the restaurant, enter for promotions and earn loyalty rewards by making cashless payments using a friendly mobile app customised for your business.

## BESPOKE PLATFORMS

WITH MORE THAN 40 AVAILABLE MODULES AND A VERY EXPERIENCED TEAM TO BOOTSTRAP YOUR UNIQUE REQUIREMENT, DELIVERY IS GUARANTEED TO BE FAST WITH THE ADDED BENEFIT OF BEING STABLE. INQUIRE WITH US TODAY IF YOU NEED ONE OF OUR FRIENDLY BUSINESS DEVELOPMENT CONSULTANTS TO MEET WITH YOU AND MAKE YOUR DREAM APPLICATION BECOME A REALITY.
